R. L. POLK & CO.

Directory Publishers Since 1870

INTRODUCTION AND GENERAL INDEX

R.L. POLK & CO., publishers of more than 1,300 City and Suburban Directories, presents to subscribers and the general public, this, the latest edition of the City Directory.

Confidence in the continued growth of the city's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted.

The enviable position occupied by R.L. POLK & CO.'s Directories in the estimation of the public throughout the United States and Canada, has been established by rendering the best in Directory service. With an unrivaled organization and having had the courteous and hearty cooperation of the business and professional community and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the City Directory will fulfill its mission as a source of authentic information.

FOUR MAJOR DIRECTORIES

I. THE CLASSIFIED BUSINESS DIRECTORY is the first major directory, printed on yellow paper. This directory contains a complete listing of business and professional firms and organizations within our canvass area, arranged in alphabetical order under appropriate headings. Included are: officers, owners, principals, number of employees, address and telephone number. Also included are the advertisements and business cards of firms and individuals desiring to make a more detailed presentation of their products or services. This directory represents reference advertising at it's best and merits the attention of all buyers and sellers seeking sources of supply or a market for goods. In a busy and diversified community, the necessity of having this kind of information up-to-date and immediately available is obvious. The Directory is a common intermediary between buyer and seller and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL DIRECTORY is the second major directory, printed on white paper. This directory intends to show the name, spouse's name, occupation, employer, address, designation of owner-occupied homes and telephone number of each adult resident. Also included is the name, official personnel, products and services, address and telephone number of business and professional firms in the city.

III. THE STREET ADDRESS DIRECTORY is the third major directory, printed on green paper. In this directory the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business firms are arranged in numerical order under the name of each street, and the names and spouses names of the householders, as well as the names of all adult residents are placed opposite the number. Business and professional firm names also appear at their appropriate numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, telephone numbers, new householder symbols, the length of residence up to 9+ years, and zip/postal codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major directory, printed on blue paper. This directory provides the name and address of the telephone subscriber when only a telephone number is known.

COMMUNITY PUBLICITY

The City Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence and as a business location.

The publishers appreciatively acknowledge those progressive business and professional firms who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

SPRINGFIELD

"SOMEPLACE SPECIAL"

(Courtesy Springfield Area Chamber of Commerce)

AERIAL VIEW OF SPRINGFIELD'S DOWNTOWN SECTION

GENERAL REVIEW

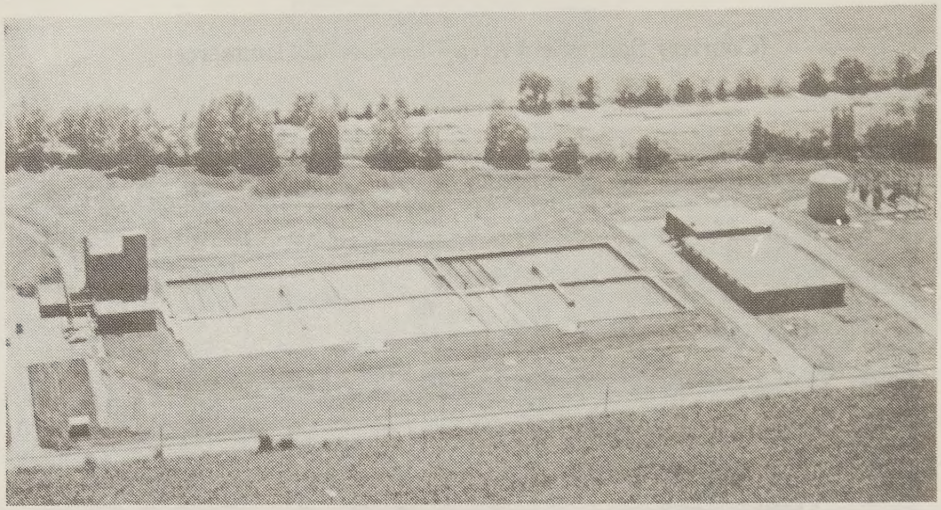
Springfield, with a population of 71,000, is located in Southwestern Ohio on U.S. Route 40, Interstate 70, and U.S. Route 68, also State Routes 4, 41, 72. Columbus is 45 miles East, Dayton 25 miles West and Cincinnati is 72 miles Southwest. Within a 300 mile radius lie the cities of Detroit, Chicago, Indianapolis, Louisville, Cleveland and Pittsburgh. Springfield is served by two railroads and 21 truck lines. Commercial air service is from nearby Vandalia. Springfield Municipal Airport has runways long enough to accommodate any aircraft now in existence or planned for the future.

Springfield's growth includes shopping areas, new homes in many new housing developments, as well as parks, recreation centers and streets. More than $1.5 billion in assessed property value, and $86.6 million in new construction has been completed. A Joint Vocational High School has training in 26 career opportunities and Adult Classes in 40 areas. Clark State Community College is a public, two-year college accredited by the North Central Association of Colleges and Schools and offers associate degrees and certificates in over 35 technologies as as well as two-year prebaccalaureate transfer programs. Located on E. Leffel Lane, and in downtown Springfield. The School now serves a five county area. The Clarence J. Brown Dam and Reservoir at Buck Creek State Park, boasts a marina, camping areas, and 26 year-'round cabin facilities, dedicated in the fall of 1974, features a 2,120 acre lake and an additional 1,980 acres of park. A family YMCA, and a new hotel, The Springfield Inn, have been completed in the downtown area. The Clark State Performing Arts Center opens in November of 1994. A $400,000 Art Center is in operation.

Springfield and Clark County schools afford the metropolitan area facilities equal to any in this section of the nation.

WITTENBERG UNIVERSITY

Springfield is the home of Wittenberg University, a private liberal arts university affiliated with the Evangelical Lutheran Church in America. The university is comprised of three divisions-the College of Liberal Arts, School of Music, and the School of Community Education. Accredited by the major state, regional and national accrediting organizations, the school has an undergraduate enrollment of 2,300. An additional 130 students are served by credit enrollment courses offered in the Evening School. Situated on 71 wooded acres in the northwest section of the city, Wittenberg's physical plant contains some 28 buildings.



SPRINGFIELD WATER PLANT

Current Water pumpage is 15 million gallons/day of its 36,000,000 gallons per day capacity. The supply source in the Mad River Valley is the greatest single deposit of underground water in the State of Ohio, according to the Ohio Geological Survey. The volume of water is virtually unlimited.

Springfield and Clark County have a population of about 148,000. It is rich in agriculture and industry. Industrial production in Springfield is highly diversified. Motor trucks and diesel engines, electric motors and fans, cranes and hoists, peanut and dry grinding machinery, pulp and paper machinery, road building equipment and steel castings, chemicals, machine tools and production machinery, piano plates and thermometers, leather goods, boilers and hydraulic turbines, steel windows and metal signs, lawn sweepers and snow throwers, aircraft tools and assemblies, plastic extrusion products, plastic sheeting and garden tractors--these indicate the broad manufacturing base.

During the year, in addition to Fair Week, three modern exhibition buildings are used for flea markets, conventions, exhibitions, home shows, dog shows, dances, the barns are used for area-wide and national livestock shows. The half-mile dirt track accommodates harness racing as well as stock car, tractor pulls, and motorcycle events.

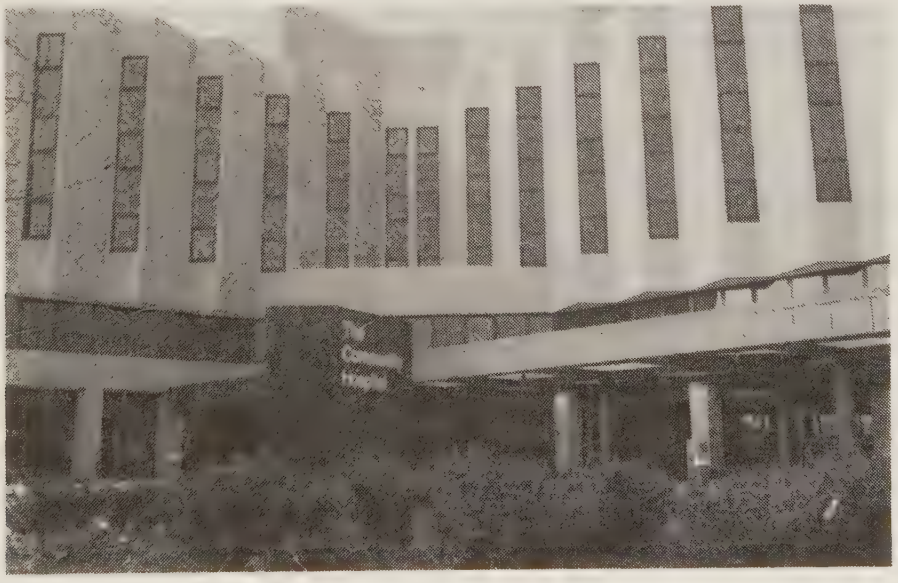
Two acute care hospitals, Community Hospital and Mercy Medical Center, serve Springfield and Clark County. Here also is located Rickly Memorial Hospital of Ohio Masonic Home, and hospitals of the Ohio Odd Fellows Home, the Ohio K. of P. Home and Ohio Oesterlen Home, as well as Springview Center, operated by the State, which cares for mentally retarded patients.

Churches of nearly every denomination are represented, numbering about 190.

Springfield has a full-size Symphony Orchestra, giving concerts during the season in Clark State Performing Arts Center; an art museum and a fine arts school maintained by the Springfield Art Association, and art exhibits sponsored by Wittenberg University; an amateur theatrical group (the Civic Theater of Springfield) producing winter schedules of plays and The Ohio Lyric Theater. During the summer months, local citizens provide talent for a variety of plays, concerts, exhibits and programs in a 4 weeks Summer Arts Festival which is free to the public. This is sponsored by the Springfield Arts Council.

Springfield also has extensive recreational and sports facilities, including 6 golf courses, parks, 4 swimming pools, 5 bowling alleys, 8 campgrounds, archery, 2 canoe liveries, a bike route, 1 racquetball club, 1 indoor skating rink, 3 outdoor and 1 indoor tennis courts.

Dedicated in Springfield, Ohio as a memorial to pioneer mothers of covered wagon days. It is on the north side of U.S. Route 40 West, near the corporation line. This is the first of 12 such statues erected in the United States by Daughters of the American Revolution.

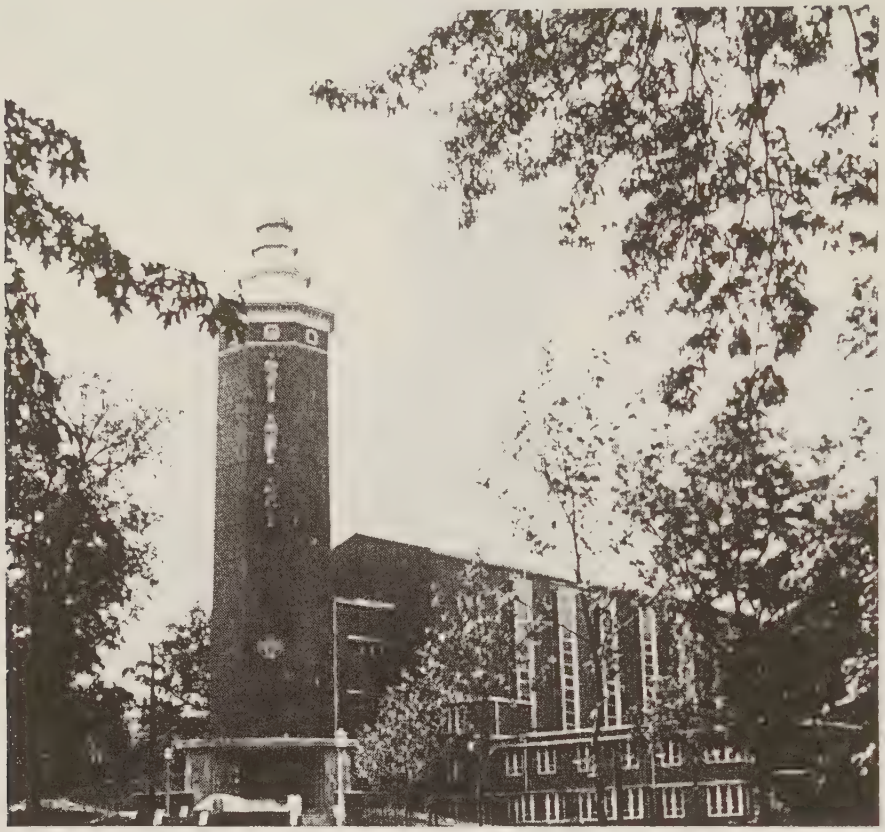


COMMUNITY HOSPITAL

Springfield is the county seat of Clark County . . . . the home of the 4-H Club movement, and where Hybrid Corn was developed. Clark County is rich in agricultural resources . . . crop yields are big. More than 207,000 acres are farmed in the county.

ELECTRIC POWER

Ohio Edison Company provides the Springfield area's electricity. There are interconnections with neighboring electric companies, providing an immense pool of power.



Wittenberg's chapel and library, viewed from the east mall, emphasizes the library with its 65,000 square feet of space and accommodations for 350,000 volumes. Figures on the tower are Milton, Leibnitz and Bach, symbolic of the cultural heritage of Christianity.

STATISTICAL REVIEW

Agriculture--Approximately 890 farms in County, $80,091,000 annual value of products sold. Altitude--980 feet above sea level.

Area--19.49 square miles. County, 412.5 square miles.

Banks and Banking--6 commercial banks; 3 savings and loan associations, and numerous branches. Combined assets total about $1,219,121,682.

EMERGENCY INFORMATION

SEVERE THUNDERSTORMS

One of the most common natural hazards is the severe thunderstorm. Watch for the conditions that may accompany this disturbance.

HAIL - Large hail can cause serious injury, so avoid the outdoors while a storm is in progress. Protect gardens and shelter vehicles to prevent costly damage.

LIGHTNING - Lightning kills more people in the United States than any other natural hazard. It may strike some miles from the parent cloud.

- Avoid being the highest object in any area. Stay away from hilltops, lone trees or telephone poles. In a forest, move under a thick growth of small trees.
- Do not enter a small structure in an open area.
- If suitable shelter is not available, seek a ravine or valley, and drop to the ground in a crouched position, hands on knees. Do not lie flat.
- Abandon metal equipment (tractors, golf carts, bicycles). Drop golf clubs and remove golf shoes. Keep several yards away from other people.

FLASH FLOODS - Flash floods often occur without warning following upstream, heavy rainfall. Drainage canals, streambeds, canyons, or areas downstream from a dam are potential flood areas. Monitor current weather conditions and make evacuation plans. Roads and trails that parallel existing drainage systems may be swept away by flood waters. When a flash flood warning is issued, or you realize a flash flood is coming, act quickly to save lives. Seconds count!

- Go to high ground immediately
- Do not drive through already flooded areas. Shallow, swiftly flowing water can sweep a car from the road and disguise a washed out road bed.
- Do not attempt to cross a flowing stream on foot where the water is above your knees.

WINTER STORMS

Severe winter storms with high winds and drifting snow often occur with little warning. Follow these tips:

- Keep posted on weather conditions.
- Prepare for isolation at home.
- Use lights for heat if the furnace goes out. Don't use gas stoves.
- Prevent fire hazards due to overheated wood- or oil-burning stoves, fireplaces, or electric heaters. Fill all liquid fuel heating devices outside buildings.
- Stay indoors. Overexertion such as snow shoveling is a major cause of winter storm deaths.
- Dress in warm layers.
- Travel only if necessary, and then only in daylight on major roads.
- Do not travel alone. Let someone know your schedule and destination.

WHEN CAUGHT IN A VEHICLE:

- Don't leave the vehicle unless help is in sight.
- Ensure proper ventilation while running the engine.
- Signal trouble by raising the hood, tying a cloth on the antenna, or turning on flashers.
- Don't burn anything in the vehicle.

FLOODS

BEFORE A FLOOD

- Know what has occurred on local property during past floods and take appropriate precautions.
- Consult a local licensed insurance agent for the availability of flood insurance through the federally sponsored National Flood Insurance Program. Generally there is a five-day waiting period, so don't wait until a flood is imminent.
- Install check valves in sewer traps to prevent floodwaters from backing up in sewer drains, or buy large corks or stoppers to plug sinks, showers, tubs.
- Obtain sandbags, plastic sheeting, lumber and towels.
- Fuel vehicles in case evacuation becomes necessary.
- Monitor rapidly changing weather conditions.

DURING A FLOOD

If there is time

- Disconnect all electrical and gas appliances. Shut off the water main to keep contaminated water from the water heater (a source of emergency drinking water.)
- Bring outdoor possessions inside.
- Move valuables and essential items to upper floors.
- Sandbags should be stacked well away from the building to avoid damaging walls. If major flooding is expected, flood the basement with clean water to equalize the water pressure on the outside of basement walls and floors. This is to prevent structural damage.
- Round up pets.

Evacuation

- Use travel routes recommended by local authorities.
- Keep a radio on for news and updates.
- Watch for flooding at bridges, viaducts, and low areas.
- Be alert for thunder and lightning that may signify rain and more flooding ahead.
- Don't drive over flooded roads. It's impossible to tell how deep the water is, or if portions of the roadway have been washed out. Vehicles may be swept away.
- Never try to cross flowing water above your knees.
- All passengers should abandon a stalled vehicle immediately and move as a group to higher ground.

AFTER A FLOOD

- Return home only when authorities say it is safe.
- If there is major structural damage or there are utility breaks, have qualified specialists inspect your home and make repairs before you re-enter.
- Be very careful when inspecting your home on your own for the first time. • Use a flashlight, not a torch or lantern. • Check for gas leaks (Use your nose.)
- Wear rubber-soled shoes and rubber gloves in case of severed electrical lines. • Don't turn on electrical switches • Check electrical circuits only when electricity has been shut off. • Don't use flooded electrical appliances until they have been repaired.
- Don't drink municipal water until the health department has declared it safe.
- Don't rush to pump out a flooded basement. If the water is removed all at once, the walls may cave in because of the sudden pressure change. Pump out about a third of the water a day. Mud is easier to shovel while it is still moist.

TORNADOES

Tornadoes may occur without warning and usually accompany a thunderstorm in the afternoon or early evening. Stay tuned to an emergency broadcast station if thunderstorms are predicted.

PREPARATION

- Keep an emergency stock of tools in the safest place to wait out a tornado. These may include a lantern and a crowbar, pick, shovel, hammer, pliers, and screwdriver for digging out of debris.
- Mobile home owners should have a licensed contractor tie the home down.
- Bring portable furniture, equipment, and pets inside on a day when thunderstorms are expected.

IF A TORNADO WARNING IS ISSUED

A tornado warning means conditions are ripe for tornado formation and one has been sighted. When a tornado warning is issued or you hear the roar of a tornado approaching, follow these guidelines.

In a home

- Stay indoors.
- Immediately go to the lowest level in the building, preferably a basement. Seek out an interior hallway or a small interior room away from windows.
- Crouch under a heavy table, desk or bench.
- If there is no protective furniture, crouch and brace yourself against an interior doorway or corner.

In a Mobile Home

Mobile homes can overturn during a tornado. Do not remain in a mobile home. Go to a community shelter.

In a Store or Office Building

- Don't run for the exit; there may be a stampede. Stay on the same floor. Move away from windows.
- Crouch under a heavy desk, bench, or table.
- Do not use the elevator.

On Foot

- Go inside the nearest sturdy building. If there's no time to enter, crouch next to it.
- If there are no buildings nearby, lie flat in the closest ditch, ravine, or culvert. Cover your head with your hands and arms. Protect yourself from flying debris.

In a Vehicle

- Don't try to outrun a tornado. Leave the vehicle and enter the nearest building, or lie in a ditch, hands covering your head.

ENCOURAGE YOUR KID'S HABIT

KIDS NEED SOMETHING BETTER TO DO THAN DRUGS. LIKE SPORTS. DANCE. OR MUSIC. BECAUSE GOOD THINGS CAN BE HABIT-FORMING, TOO. SO GET THEM INTO A GOOD HABIT. TODAY. OR THEY MAY GET INTO A VERY BAD ONE.
